# ALBA GEM STONE

Alba Cristais is a Brazilian Company that aims to provide, with originality, the purity and high energy of crystals.

At Alba Gem Stone, we work with druses and geodes of Brazilian gemstones - such as Amethyst, Opal, various types of Agate, and Transparent Quartz.

When preparing the crystal, we respect the stone's naturalness as much as possible, as our purpose at Alba goes far beyond offering a decorative piece. Each Alba Crystal provides the vibrational increase of everything around it.

Every crystal is lapidated in a special way, where one side it is polished, and on the other the raw gemstone is kept. Keeping the originality of the crystal and allowing total integration of its energy with the energy of the person who will receive it.

**Minimum order:**  
**US\$8,000.00**

**Production**  
**time: 30 days**
