STONE BLOCK

Alba Cristais is a Brazilian company dedicated to delivering the finest stone blocks and slabs, renowned for their natural beauty and enduring quality.

At Alba Cristais, we work with premium materials, including marble, quartzite, and granite, sourced both locally from Brazil and globally. Each block and slab is carefully selected to meet the highest standards of craftsmanship and aesthetic appeal.

When preparing our stone blocks, we honor the material's natural characteristics, ensuring its authenticity and raw beauty remain intact. Our mission at Alba extends beyond supplying raw materials; we aim to inspire timeless creations in architecture and design, using stones that reflect the Earth's unique artistry.

Every block and slab is handled with care, ensuring it arrives ready to become a part of something extraordinary—whether it's a luxury interior, an architectural masterpiece, or a statement piece in a large-scale project.
